Lucas Cavalcanti Rodrigues

Summary

I am an economist and data scientist with experience in statistics, applied econometrics and academic research. I have advanced knowledge of Python, with an emphasis on data analysis libraries like pandas, matplotlib and statsmodel. In addition, I have intermediate knowledge of Linux and basic knowledge of machine learning, web development (HTML, CSS, Javascript, Flask), SQL, and Google Cloud (Big Query, VM, Cloud Function, Cloud Scheduler). I currently work as a consultant, advising on data analysis for public and private organizations.
